

MORGAN GUINYARD

Undergraduate Computer Science Student | Georgia State University | GitHub: landbasedfighter

EDUCATION

Georgia State University, Atlanta, Georgia

December 2028

Bachelor of Science in Computer Science

- Relevant coursework: Data Structures, Computer Organization and Programming, Calculus I / Calculus II

WORK EXPERIENCE

Microsoft, Redmond, Washington

May 2026 - Aug 2026

Software Engineer Intern

- Developing MCP (Model Context Protocol) server tools in C# for automated code review within the OneDrive SharePoint Core Tenant Admin Team
- Enforcing internal engineering standards through automated review tooling integrated into the development workflow

Microsoft, Redmond, Washington

May 2025 - Aug 2025

Microsoft Explore Intern

- Completed Microsoft's PM/SWE rotational internship program for freshmen and sophomores
- Built a Visual Studio extension in C# that embedded a context-aware coding agent into the IDE, grounded in OneDrive SharePoint's monolithic repository
- Designed a custom chat interface to work around limitations in Visual Studio 2024's native agent extensibility APIs
- Shipped to engineers within the OneDrive SharePoint organization

Microsoft, Atlanta, Georgia

Jun 2024 - Aug 2024

Microsoft Discovery Intern

- Led a UI/UX overhaul of Microsoft Azure's mobile application during Microsoft's PM internship
- Gathered feedback from key stakeholders and users to inform design decisions
- Presented insights at a VP-level demo day
- Design implemented within 4 months of exiting internship, resulting in a 27% increase in positive user feedback

DeKalb County School District, Metro Atlanta

Jan 2024 - May 2024

IT Helpdesk Intern

- Provided technical support to students, teachers, and administrative staff
- Troubleshoot hardware and software issues across Windows and Mac environments
- Repaired educational hardware including laptops, tablets, and projectors
- Documented technical issues and solutions using ticketing systems

Georgia Tech Research Institute, Atlanta, Georgia

Jun 2023 - Jul 2023

Research Intern

- Collaborated with a team of interns to build an AI-integrated web application for teaching K-12 students programming fundamentals
- Built with Flask, Python, HTML, CSS, and JavaScript, with a language model integrated to make the platform interactive and responsive

TECHNICAL SKILLS

Programming Languages:	JavaScript, HTML/CSS, C#, Python, Java
Software & Tools:	Git, Visual Studio, Figma
Design & Modeling:	Blender, Maya, 3D modeling and animation
Web Technologies:	HTML5, CSS3, Flask, responsive design principles
Data Analysis:	Data visualization tools, statistical analysis

AWARDS AND RECOGNITION

- College Board National African American Recognition Program (2021-2022)
- College Board National Rural and Small Town Recognition Program (2021-2022)
- Advanced Placement Scholar with Distinction (2023)
- Advanced Placement Scholar (2022)
